Lecture 3, appendix

Insofar as I refer to cultural history and art history, it is to demonstrate how the complex and contradictory relationship between allegory, actuality, politics and sexuality is never confronted but always negotiated or side-stepped. - Pointon, "Liberty on the Barricades"

Symbol: an image, object, or word that "by virtue of association" represents something more, or other than what it is. It is distinct from a metaphor or simile because it need not be a comparison (or need not "resemble" that to which it refers). "This candy heart is a symbol of my undying love." "This circle symbolizes reincarnation."

Allegory: a narrative that is complete as a story in its own right, but is "disguised" (sometimes for political reasons). Allegory often uses symbolic or *allegorical* figures ("Truth" or "Justice"), or may form an extended metaphor in which objects, persons, or actions inside the visible narrative are equated to parallel meanings that lie outside the narrative. Thus an allegory has two meanings, one of which must be translated to discover the parallel "moral, social, religious, or political significance" in the real world.

Emblem: Middle English 15th c, from Latin *emblema* inlaid work, from Greek *emblemat-*, *emblema*, from *emballein* to insert, from *en-* + *ballein* to throw, linked to *dia-ballein* (diabolic) "Devil," to throw across. 1: a picture with a motto or set of verses intended as a moral lesson; 2: an object or the figure of an object symbolizing and suggesting another object or an idea; 3a: a symbolic object used as a heraldic device; 3b: a device, symbol, or figure adopted and used as an identifying mark.

Icon: an image (usually pictorial) that distills into a single coherent form a powerful representation of a very powerful entity (often devotional or heroic). In Christological terms, the icon is nothing in itself, but only accrues power by "pointing" outside itself and directing the viewer to the eternal deity it merely signifies. This is, of course, to avoid charges of idolatry, which brings up other terms we will tackle later on: **idol**, **fetish**, and **totem**.
