# Entrepreneurs and workers <br> ABHIJIT BANERJEE AND ESTHER DUFLO 14.73 

## Lots of entrepreneurship among the poor

-Who is an entrepreneur?
○?
$\circ$ ?

- Examples
$\circ$ ?
- $12 \%$ of people in the OECD describe themselves as self-employed
- The corresponding fraction among the poor is much higher.

## How many households had at least one person self employed in agriculture?

## How many households have at least one person self-employed in non-agricultural work?

## Why is this surprising?

- What are disadvantages of the poor with the respect to entrepreneurship
$\bigcirc$ ?
- ?
- ?
- What are advantages of the poor with respect to entrepreneurship?
o?

## "Natural Entrepreneurs"

- Does this mean that the poor are natural entrepreneurs?
- What do we know about the businesses of the poor?
- Size
- Type
- Multiplicity
- Durability
- Aspirations

## How many paid employees do these businesses have?

## How many total employees do these businesses have?

## What percent of businesses own a vehicle?

## What percent of businesses own some machines?

## How many households receive income from multiple sectors?

# How many poor households have at least one non-agricultural business? 

Image by MIT OpenCourseWare.

## Are these profitable businesses?

- In Hyderabad, when household labor was priced at minimum wages most businesses lost money
- On the other hand they pay high interest rates-so marginal returns must be high.
- How do we square these facts?

## Implications of this shape

- There is limited scope for growth.
- In Sri Lanka those who got \$250 in lottery got 60\% or more return on their capital
- However many of those who got $\$ 500$ did not invest the second $\$ 250$.

## Why are they in business

- Lack of good jobs:

Almost nobody grows therefore no one creates good jobs

- Flexibility
- "Idle" women
